DETAILED ACTION

Election/Restrictions

Applicant's election of claims 1-14 in the reply filed on September 21, 2004 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

Priority

Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Information Disclosure Statement

The references cited within the IDS, filed on August 21, 2003, have been considered.

Drawings

The drawings submitted by the applicant on August 21, 2003 are acceptable.

Allowable Subject Matter

Claims 1-14 are allowed.

The following is an examiner's statement of reasons for allowance. The prior art of record and to the examiner's knowledge does not teach or render obvious, at least to the skilled artisan, the instant invention regarding the method of manufacturing a semiconductor laser, particularly characterized by the steps of forming concave and convex portions on a semiconductor layer and forming an active layer in which quantum dots are arranged three-dimensionally only on the insides of the concave portions, as

recited in independent claim 1; and a method of manufacturing a semiconductor laser, particularly characterized by forming grooves in a semiconductor layer, and forming quantum dots in the bottom portions between the grooves by utilizing a difference in lattice constants, as recited in independent claim 5. Claims 2-4 are dependent upon claim 1 and claims 6-14 are dependent upon claim 14.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

The following references are cited as being particularly related to the applicant's invention: Mukai et al. (6,815,242), Bensahel et al. (6,596,555) and Yoshida et al. (5,113,473).

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Scott B. Geyer whose telephone number is (571) 272-1958. The examiner can normally be reached on weekdays, between 10:00am - 6:30pm. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael J. Tokar can be reached on (571)272-1812. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
